HISTORY

The journey began in 1985, the early years of Information technology in Pakistan. When the market was virgin, risks were calculated intelligently and every step was challenging.

A young entrepreneurial group made a vision to pioneer this emerging territory.

With enduring dedication, a company was born with the name of

“**ABM Data Systems (Pvt.) Ltd.**”

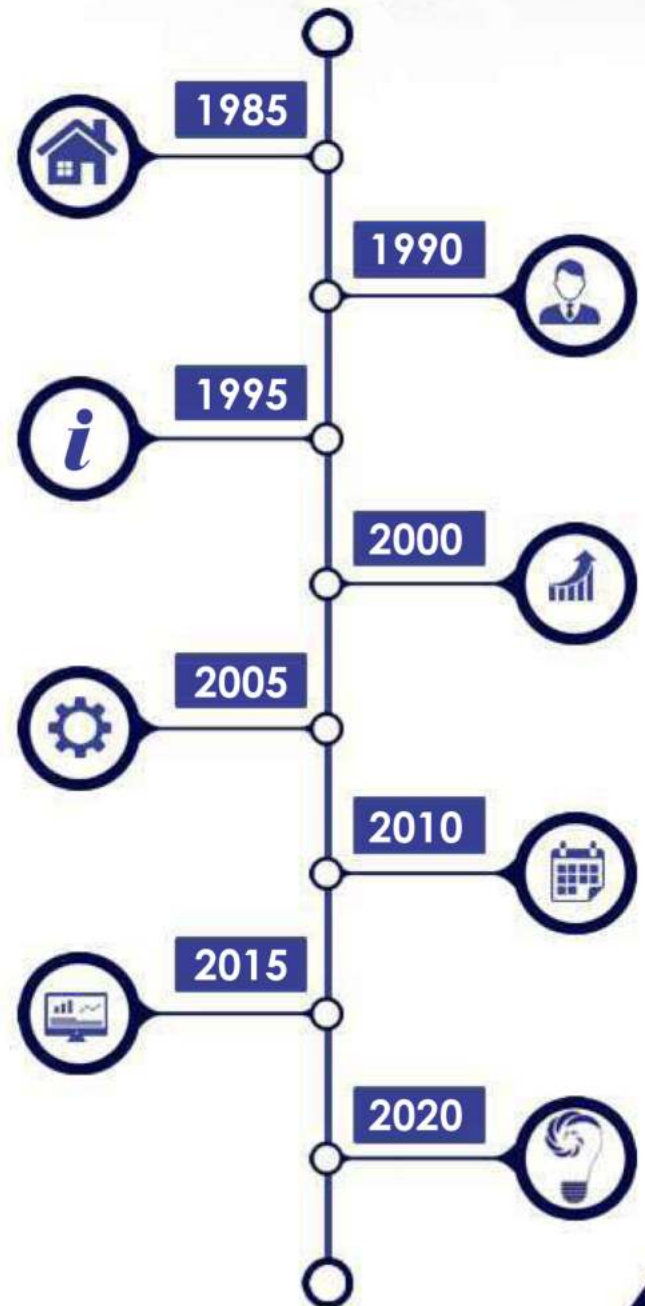

The time was ripe, the opportunities were endless and ABM had the ingredients for a perfect take - off.

With the passage of time, market competitiveness grew rapidly and an array of I.T boom began in Pakistan. ABM achieved its objective ahead of competition through its core values and professional philosophy.

ABM's continuous success was not possible without its strong association and robust working relations with the world's premier IT brands.

Since 1985 we have been working as the “**Distributors**” of **EPSON**.

Other than that we proudly carry **BIXOLON** and **BenQ**. Serving with the best variety in the market. The company developed internal “Values” that laid emphasis on total customer satisfaction -

The corner stone of ABM success.

**We are known by the
Brands we carry**
